PEOPLE WITH ALL KINDS OF DISABILITIES, MOSTLY CHILDREN, BUT SOME ADULTS, WITH ALL KINDS OF DISABILITIES. EVERYTHING FROM AUTISM TO CEREBRAL PALSY, TO BRAIN TRAUMA, WE EVEN RIDE SOME DISABLED VETERANS" THERAPISTS GUIDE THE RIDERS AS THEY WORK ON UPPER BODY STRENGTH WITH ARM EXERCISES, BALANCE AND COORDINATION, AND SOME EVEN TRY IT ALL BACKWARDS AND THE MOVEMENT OF THE HORSE ACTUALLY STIMULATES ALL THE MUSCLES IN THE BODY AND THE ORGANS IN THE BODY THE SAME WAY WE WOULD IF WE WERE WALKING A LOT. SO WE GET HUGE RESULTS FROM THE MOVEMENT OF THE HORSE" THIS ISN'T A NEW IDEA. IN ROMAN TIMES, WOUNDED SOLDIERS WERE PLACED ON HORSEBACK TO HELP THEM RECOVER MORE QUICKLY. STARS LIKE CHRISTINA APPELGATE, OLIVIA NEWTON-JOHN AND CHERYL CROW SHOW US THAT BEATING BREAST CANCER IS DO-ABLE. THE EARLIER WOMEN TREAT THEIR CANCER, THE BETTER THEIR CHANCES. BUT SOMETIMES THAT PROCESS CAN BE COMPLICATED AND PAINFUL. 200-THOUSAND WOMEN WILL GET A DIAGNOSIS THIS YEAR. NEARLY 40-THOUSAND WILL DIE. BUT WHEN BREAST CANCER IS SPOTTED EARLY -- THE NEWS ISN'T ALWAYS BAD. "I FEEL VERY BLESSED. I THINK GOD WAS LOOKING OUT FOR ME." CINDY DYER'S DOCTORS FOUND A TUMOR ONE-MILLIMETER IN SIZE ON HER MAMMOGRAM. SHE NEEDED A LUMPECTOMY TO REMOVE IT. TO DO THAT, SURGEONS HAVE TO PRECISELY LOCATE THE TUMOR. THE STANDARD WAY IS TO INSERT A LARGE WIRE THROUGH A NEEDLE -- WITH X-RAYS AS A GUIDE. IT'S NOT EASY. "YOU CAN'T SEE IT. YOU CAN'T FEEL IT, SO YOU'RE KIND OF GUESSING BASED ON THOSE X-RAYS. FOR SOME, IT CAN BE VERY UNCOMFORTABLE, PAINFUL." DOCTOR LOUIS BARR OFFERED CINDY SOMETHING DIFFERENT. THESE RADIOACTIVE SEEDS ARE IMPLANTED IN THE CENTER OF THE LUMP. A DEVICE READS THE RADIO-ACTIVE SIGNAL INSIDE THE SEEDS AND ACTS AS A MARKER -- GUIDING THE SURGEON TO THE RIGHT SPOT -- SO HE CAN REMOVE THE TUMOR AND THE SEEDS. "IT GIVES US A PRECISE WAY OF KNOWING EXACTLY WHERE THE SPOT IS THAT WE NEED TO GO." THE SEED METHOD CAN BE DONE FIVE DAYS BEFORE SURGERY. IN A MAYO CLINIC STUDY, ONLY EIGHT PERCENT HAD TO HAVE MORE OPERATIONS TO REMOVE LEFT OVER TISSUE. SINCE THE SEEDS ARE SO SMALL, THERE'S LESS PAIN, WITH LITTLE TO NO RECOVERY TIME. THE WIRE METHOD HAS TO BE INSERTED THE SAME DAY AS SURGERY -- OFTEN CAUSING SCHEDULING CONFLICTS. 25 PERCENT OF PATIENTS HAD TO HAVE ADDITIONAL SURGERY, AND IT CAN BE PAINFUL. IT TOOK LESS THAN 30 MINUTES. DROVE HOME AND PREPARED FOR SURGERY THE NEXT DAY." ANOTHER BENEFIT IS THE SEEDS COST LESS -- ABOUT THREE-THOUSAND DOLLARS LESS PER PATIENT. BECAUSE THE SEEDS INVOLVE THE USE OF A RADIOACTIVE

MATERIAL, HOSPITALS ARE STRICTLY REQUIRED TO FOLLOW STATE AND FEDERAL GUIDELINES. THESE SAME SEEDS HAVE BEEN USED TO TREAT PROSTATE CANCER.

EVERY YEAR, MILLIONS OF U-S WOMEN HAVE MAMMOGRAMS TO DETERMINE IF THEY HAVE BREAST CANCER. WHILE THESE TESTS RANGE FROM FRIGHTENING TO PAINFUL, MAMMOGRAMS PROVIDE EARLY DETECTION THAT SAVES LIVES. NOW, A NEW TEST CAN "SNIFF OUT" BREAST CANCER ON-THE-SPOT! INSTEAD OF CHECKING YOUR BREASTS, IT CHECKS YOUR BREATH! CAROL WITCHER SAYS HER DOG FLOYD HENRY KNEW SOMETHING WAS WRONG BEFORE DID. "HE LOOKED AT ME STRANGELY AND PUSHED AND SNORTED MY RIGHT BREAST AND PUSHED AND SNORTED MY RIGHT BREAST AND PUSHED AND SNORTED AND PUSHED AND SNORTED. AND I'M THINKIN' SOMETHIN'S NOT RIGHT!" TURNS OUT THAT DOG KNEW THE SCORE. CAROL WAS DIAGNOSED WITH BREAST CANCER, AND THIS TEST

CONFIRMED IT. THE EXPERIMENTAL TEST MEASURES ORGANIC COMPOUNDS EXPELLED FROM THE LUNGS, AND IDENTIFIES THE ONES LINKED TO BREAST CANCER. "THE BIG DIFFERENCE IS NOW YOU GO IN YOU GET YOUR BREAST CRUSHED AND THEY DO A RADIOLOGICAL TEST... WHAT THIS DOES YOU JUST BREATHE INTO IT AND WE MEASURE JUST FROM THE BREATH." A PILOT STUDY SHOWS THE TEST WAS 77-PERCENT ACCURATE IN DISTINGUISHING CANCER. FOR MAMMOGRAMS, THE SUCCESS RATE IS 80-PERCENT. FOR WOMEN, THIS MEANS POTENTIALLY INSTANT SCREENING, AS MOST MAMMOGRAMS LAST FROM 15-MINUTES TO ONE HOUR. "VERY EXCITING TO POTENTIALLY PUT THIS IN THE PRIMARY CARE PHYSICIANS OFFICE AS AGAIN A DIRECT READ SYSTEM WHERE A PATIENT COULD BE TOLD RIGHT AWAY YES IT LOOKS LIKE SOMETHING'S THERE, GO AN GET YOUR MAMMOGRAM EARLIER." "AND LAST MAY, SHE SAID CAROL, YOU'RE CANCER FREE." THANKS TO EARLY DETECTION AND TREATMENT CAROL'S CANCER IS BEHIND HER. MEANING HER DOG HAS GOT PLENTY TO SING ABOUT. THE BREATH TEST IS STILL EXPERIMENTAL, BUT THE SCIENTIST BEHIND IT BELIEVES THE TEST WILL BE A REALITY IN OUR LIFETIME. RESEARCHERS SAY THIS TEST WILL LIKELY NEVER REPLACE THE MAMMOGRAM. STILL, IT MAY ALLOW EARLIER INTERVENTION, AND REGULAR TESTING FOR HIGH RISK WOMEN, WHILE OFFERING BREAST CANCER SCREENINTO WOMEN IN THIRD WORLD COUNTRIES.

SOFTBALL MEANS THE WORLD TO 11-YEAR-OLD DANIELLE PARADIS. "THE DAY I STARTED PLAYING IT, I FELL IN LOVE WITH THE SPORT." THAT WORLD FELL APART WHEN SHE WAS DIAGNOSED WITH SCOLIOSIS LAST YEAR. "I'LL GET, IF I GET LIKED TAGGED IN THE BACK, OR SOMETHING, I MIGHT START CRYING CAUSE IT REALLY HURTS." HER SPINE HAS A 20-DEGREE CURVATURE. EXPERTS SAY ANYTHING OVER 10 DEGREES NEEDS ATTENTION. A NORMAL SPINE HAS NO CURVE. DOCTORS CAN PUT YOUNG PATIENTS IN A BRACE, WHICH SLOWS CURVE PROGRESSION IN 75-PERCENT OF CASES. WHILE THEY MAY PREVENT SURGERY, BRACES CAN BE BULKY AND EMBARRASSING. IF YOUR CURVE IS NOT GOING TO CHANGE, THEN WE CAN KIND OF LET YOU GO FREE, BUT THERE IS NO WAY WE HAVE RIGHT

NOW TO REALLY ACCURATELY TELL US THAT." MARK LEE AT THE CONNECTICUT CHILDREN'S MEDICAL CENTER SAYS THIS "SCOLI-SCORE" TEST MAY SOLVE THE PROBLEM. A SALIVA SAMPLE IS CHECKED FOR 53 D-N-A MARKERS, THEN PATIENTS THEN GET A SCORE BETWEEN ONE AND 2-HUNDRED. "A LOW SCORE TELLS ME THAT, THE CURVE THAT YOU HAVE, WHEN YOU COME TO SEE ME, WILL NOT CHANGE AT ALL, AND THE HIGH SCORE TELLS ME THAT THE CURVE PROBABLY WILL CHANGE AND YOU MIGHT NEED SURGERY DOWN THE LINE." FOR DANIELLE'S PARENTS, IT OFFERS A SORT-OF SECURITY. "NO MATTER HOW EARLY YOU DETECTED IT, IF IT DOES GO TO SURGERY, YOU KNOW IT COULDN'T HAVE BEEN PREVENTED." DANIELLE NOW WEARS A BACK BRACE AT NIGHT BUT STILL SUITS UP FOR EVERY GAME. "I LOVE THE RUSH. I JUST LOVE EVERYBODY ON MY TEAM."

NOW A STUDY IN THE JOURNAL "ALCOHOLISM: CLINICAL AND EXPERIMENTAL RESEARCH " SUGGESTS IT CAN BE USED TO DECREASE BINGE DRINKING. TWELVE MEN WERE GIVEN EITHER KUDZU EXTRACT OR A PLACEBO FOR NINE DAYS. THEN, THEY WERE GIVEN A SET AMOUNT OF ALCOHOL TO DRINK. THOSE WHO HAD TAKEN THE KUDZU EXTRACT HAD: - INCREASED HEART RATE - ELEVATED BLOOD ALCOHOL LEVELS - AND REPORTED GREATER LEVELS OF DIZZINESS COMPARED TO THOSE WHO HAD TAKEN THE PLACEBO. THE AUTHORS DON'T KNOW WHY THE KUDZU CAUSED BLOOD ALCOHOL LEVELS TO RISE. BUT THEY THINK THEY'VE FOUND OUT WHY PEOPLE DRINK LESS AFTER TAKING KUDZU: THEY MAY FEEL THE EFFECTS OF THE ALCOHOL MORE QUICKLY. IN OTHER WORDS, GETTING DRUNK FASTER MAY ACTUALLY REDUCE HOW MUCH YOU END UP DRINKING-- A CONCLUSION EVEN THE AUTHORS ADMIT IS " COUNTER-INTUITIVE." STILL, THEY SAY KUDZU EXTRACT

COULD HELP MANAGE BINGE DRINKING, WHICH COULD PROMOTE COMPLETE ALCOHOL WITHDRAWAL ALONG WITH OTHER TREATMENTS.

THE QUESTION: IF ONE OR BOTH OF YOUR PARENTS HAD HEART ATTACKS-- DOES THAT AFFECT *YOUR* RISK OF HAVING ONE-- EVEN AFTER ACCOUNTING FOR OTHER GENETIC AND BEHAVIORAL RISKS SUCH AS SMOKING AND DRINKING ALCOHOL?. THE ANSWER: HAVING A PARENTAL HISTORY OF HEART ATTACK INCREASES *YOUR* RISK BY AN AVERAGE OF 74 PER CENT. IF ONE PARENT HAD A HEART ATTACK *OVER* 50 YEARS OF AGE, YOUR RISK GOES UP 67 PER CENT-- *UNDER* 50 -- YOUR RISK INCREASES BY 136 PER CENT. IF *BOTH* YOUR PARENTS HAD HEART ATTACKS OVER AGE FIFTY, THAT PUTS YOU AT A 190 PER CENT GREATER RISK AND IF THEY BOTH HAD HEART ATTACKS *UNDER* FIFTY, YOUR RISK SOARS BY A WHOPPING 226 PER CENT. THE STUDY'S CONCLUSION: A PARENTAL HISTORY OF HEART ATTACKS IS A SIGNIFICANT, INDEPENDENT PREDICTOR OF HEART ATTACK.
